

Hearing Protection

Making the right choice is essential

What level of protection is required?

Noise levels in the workplace must be measured first in order to determine what level of protection is required. The Health and Safety professional or external qualified service providers should conduct tests using approved test equipment.

The continuous noise level and, if necessary, the peak emission noise level are measured, enabling a noise profile to be recorded.

Appropriate hearing protection can then be selected using the SNR method.

Objective: noise level – SNR value

The objective when choosing suitable hearing protection is to achieve an effective residual noise level of between 70 dB and 80 dB for the wearer.

If the protection level is too high (over-protection), this can result in the inability to communicate and the risk of not hearing critical messages, instructions or signals.

Example:

Noise level 100 dB – uvex xact-fit, SNR 26 dB = 74 dB

RANGE

uvex disposable hearing protection plugs

Outstanding safety for one-time use: uvex disposable hearing protection plugs offer excellent wearer comfort when worn for long periods.

uvex reusable ear plugs

Readily available and easy to clean: uvex reusable ear plugs with hygiene boxes are reliable companions for your everyday work.

USE

To guarantee optimum hearing protection, uvex disposable hearing protection plugs must be used correctly.

Briefly roll down uvex disposable hearing protection plugs.

Put your arm over your head and move the ear slightly upwards to straighten your auditory canal. This achieves a better fit.

Insert plugs and hold in place while they expand. If they are not visible from the front, then they are in the right position.

Take uvex reusable ear plugs by the handles and place the cord around your neck.

Insert uvex ear plugs into the auditory canal, applying gentle pressure.

HYGIENE

In dirty working environments, particles can easily stick to the surface of materials and cause minor injuries in the ears.

Please dispose of uvex disposable hearing protection plugs after each use.

Easy to clean with uvex damp cleaning cloth.

Alternatively, clean them with water and mild soap.

Dry them and store in the uvex hygiene box when not in use.

MORE INFORMATION

Detailed application videos show you how to use uvex disposable hearing protection plugs properly.
